

+ TRANSFORMATION AND INNOVATION EXCHANGE

Practical transformation
and innovation support,
together in one place

TRANSFORMATION
AND INNOVATION
EXCHANGE

Our new Transformation and Innovation Exchange helps councils come together to share learning and support each other.

Central to this is a self-assessment tool to give councils the information they need to understand their ambition for change and identify opportunities. With a focus on leadership of place, financial planning, viability and priority setting, the use of digital, technology and intelligence and procurement and commissioning, the tool's modules will help authorities deliver better value for money and improve outcomes for communities.
